

THOMAO**SMT Equipment Provider-One stop solution provider**

INSPECTION CONVEYOR

Features

- Modular design.
- Weighted design improves stability.
- Inspection mode and automatic mode.
- Inducing multi-zone position accuracy.
- Ergonomic design, make arms rest.
- Custom machine length according to customer's requirement.
- Order the number of multi-zone upon request.
- Variable speed control.
- Compatible SMEMA interface.

Operation diagram

Technical Parameters

Description	This machine is used for loading the SMT chips after the auto SMD chips counting machine
Belt type	Round belt or oblate belt
Conveying speed	0.5-20M/min or customer specified
Powersupply	AC1P110V/220V
Power	Max 100VA
Transport height	900±20mm(Or customized)
Transport direction	From left to right or right to left

Specifications

Model	PCB size(MM)	Weight(KG)	Dimension(L*W*H MM)
BC-050L-N	50*50-445*520	55	500*676*900
BC-100L-N	50*50-445*520	80	1000*676*900
